PROFESSIONAL SUMMARY

Full-stack development student at YouCode UM6P, actively looking for an opportunity to start my professional career. Passionate about Java and Angular technologies, I have developed solid technical skills through practical and concrete projects. Rigorous, curious, and motivated to learn, I wish to put my knowledge into practice and contribute to your projects while continuing to progress within your team.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

July 2025 – August 2025

Groupe Renault • Tangier

- Development of commercial dashboards for Dacia & Nissan using Spring Boot and React.js
- Integration of commercial data visualizations and dynamic report generation
- Team collaboration using GitLab and Oracle database management
- Agile/Scrum methodology to ensure efficiency and deliverable quality

Full Stack Developer

May 2025 – July 2025

Freelance • Tangier

- Development of reactive user interfaces with modern frameworks (React, Angular)
